To whom it may concern,

Several mounting brackets are required for an optical experiment. If you are interested in this work, please provide an estimate. In case of any errors, omissions or ambiguities in the provided drawings please contact me.

All dimensions are in inches.

Brackets #1, #3:

Quantity one (1) each. Material is 0.375" aluminum plate. These are optical mounts, thus squareness is important.

Bracket #2:

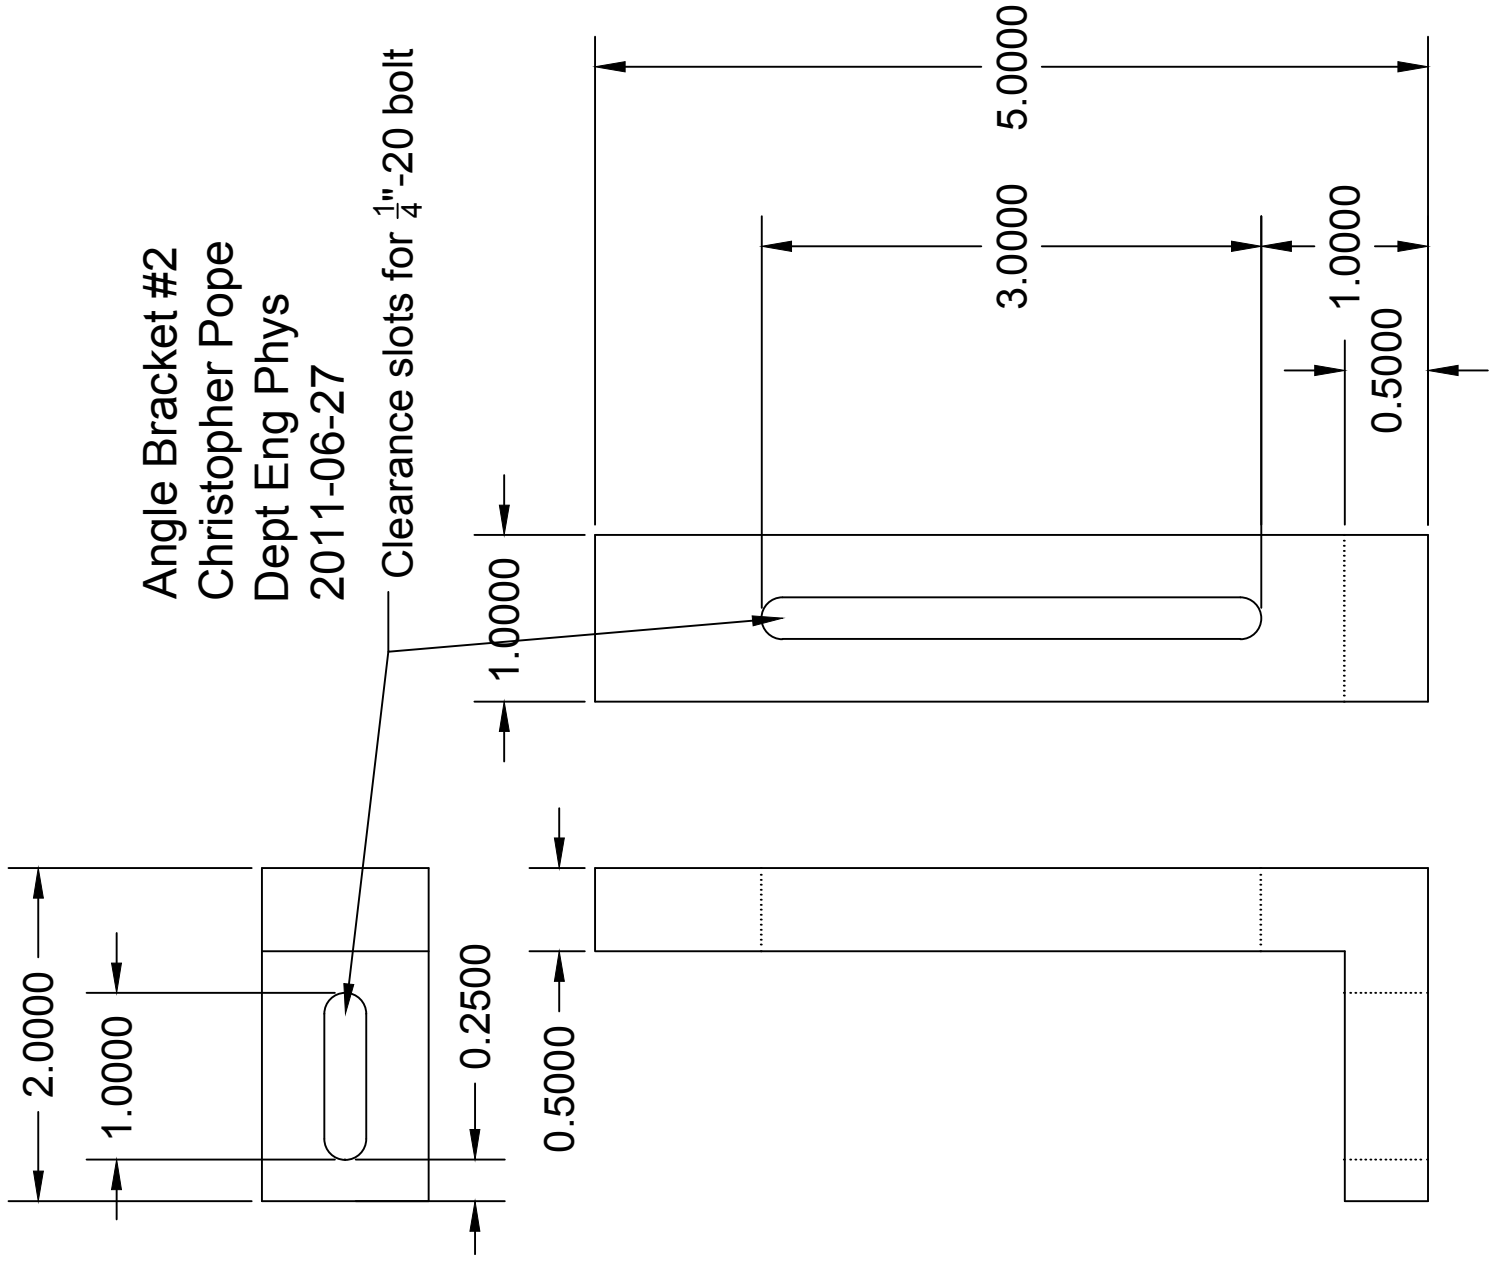

Quantity two (2). Material is 0.5" aluminum plate. Slot length is not critical.

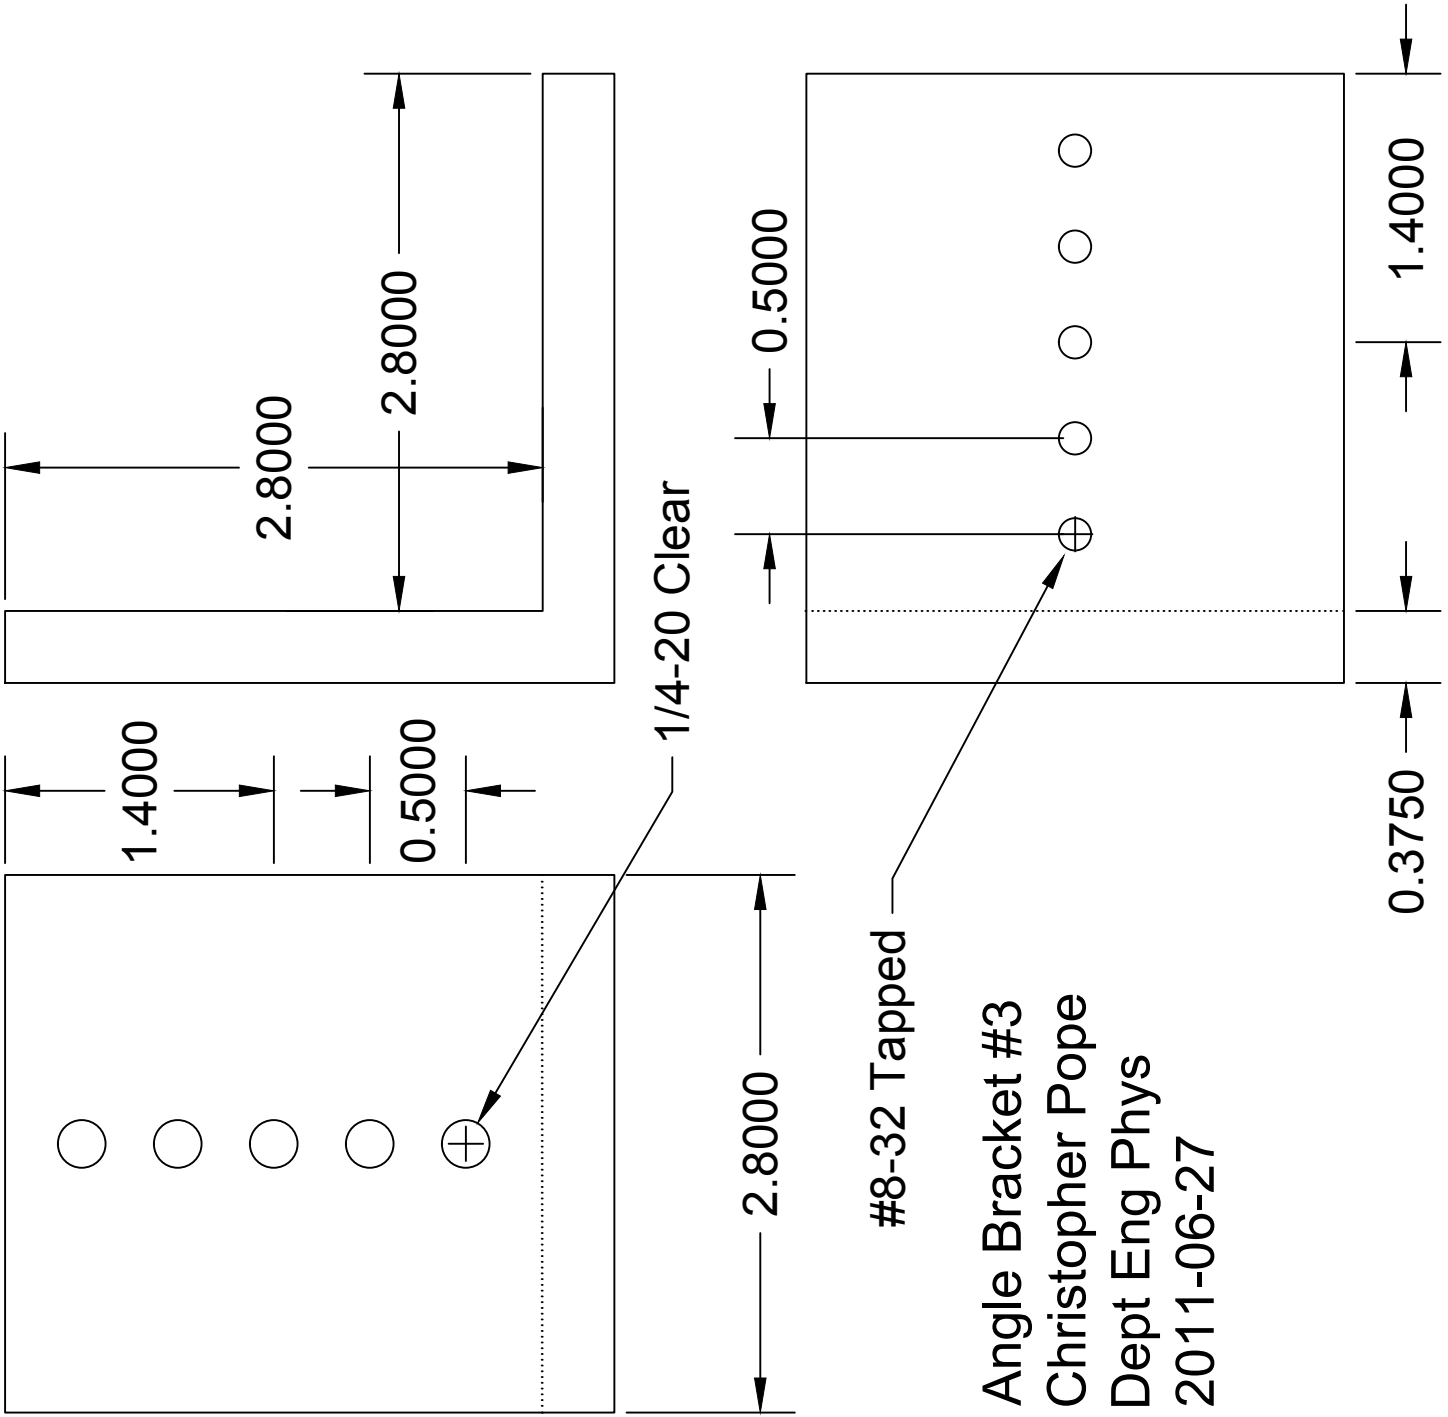

Thank You

Angle Bracket #2
